## CompuFour Clipp Store 2017-RiO2016

8.12.2016 - 10:42 CompuFour Clipp Store 2017-RiO2016. There's nothing like taking home a sweet pocket camera that lets you capture memories to show your friends and family what you've been up to. Maybe you're testing out a new lens, or have a unique style of photography. No matter what it is, you want a camera that will turn heads as you roam around with it. To make sure that you have the right equipment for all your adventures, check out the best pocket cameras of 2017 and get one that will help you take great photos. Your Mobile Experience has Never Been Better When it comes to smartphone cameras, we want a camera that is easy to use, affordable and has a wide range of features and quality. The newest pocket cameras are offering a lot of these features. With a good mobile phone, you can get great photos, capture video clips and even make calls. Thanks to smartphone apps, you can also edit your photos right on the device itself. You don't have to send them to a computer first, nor does it have to upload them somewhere. When you're ready, just tap, share or view your photos. But, if you're looking for something with more features, it's easy to find. There are a wide variety of pocket cameras available on the market. From really small, no-frills cameras that will fit into your handbag, to larger cameras that will give you the ability to capture high-quality images. It's not hard to find one that fits your needs. Check out these top pocket cameras of 2017: Canon PowerShot G7 X Mark II The Canon PowerShot G7 X Mark II has been a popular camera for a long time. This pocket camera, for beginners and professionals alike, features a 12.1 megapixel sensor. With the EOS Utility app, you can choose from a number of settings that will optimize your shots. The Canon PowerShot G7 X Mark II has a 12x optical zoom lens, and a maximum aperture of f/2.8. The Canon PowerShot G7 X Mark II has a 6 frames per second shooting speed, and a continuous shooting speed of up to 8 frames per second. When it comes to 4K videos, the Canon PowerShot G7 X Mark II will capture high-definition videos. Plus, you can add a wide array of styles, including panoramic, retro and creative effects.
